**Insert organization:**

**PURPOSE**

This position is responsible for managing the Join Education program. The Joint Education Program is a bridging program funded by the Marshallese government which supports high school graduates to gain the skills they need to cope with degree level programs. The Program Administrator will teach one of the Joint Education Program subjects, as well as monitor staff performance, manage enrolments and compile data related to student progress.

The role is currently partially performed by SAS Officer Yolanda McKay, but the demands of two jobs mean she is unable to perform certain aspects of the Program Coordinator job which are integral to the success of the program.

By hiring a dedicated Program Administrator, the university will be able to monitor the progress of students, analyse data and devote more resources to supporting students to stay engaged with their course materials. This individual can also monitor staff performance and support professional development to ensure staff can effectively fulfil the requirements of their position. Through compiling and analysing data, this individual will be well placed to identify any problems the students and the university face, and identify training and resources to overcome problems. They will also manage enrolments, lead marketing initiatives and maintain a holistic understanding of the scope of the Joint Education Program.

### **NATURE AND SCOPE**

Prior to the commencement of Semester, and during the first weeks, the Program Administrator will be responsible for overseeing enrolment for the JEP program and then be responsible for ensuring a successful student orientation.

During the Semester, the Program Administrator will teach a course, as well as oversee the other teachers. This oversight will include monitoring attendance, evaluating performance and identifying appropriate interventions or professional development when staff are unable to fulfil the requirements of their roles. This individual will also provide career counselling to staff and identify how staff may desire to develop their skills in areas like teaching, research and their speciality subject. This individual will be responsible for working with staff to ensure they are achieving their full potential and finding opportunities for personal growth.

By maintaining data about students' achievements, the Program Administrator will be able to identify students at risk and explore avenues for intervention (e.g. extra study support or counselling).

The Program Administrator will organise regular academic staff meetings, as well as support full campus staff meetings. This individual will also work with academic and administrative staff and the Student Association to support the organisation of activities for cultural events and whole school celebrations.

The Program Administrator will also liaise with contacts at local high schools and the Ministry of Education to organise marketing opportunities and ensure contacts understand what the Foundation and Preliminary programs can offer students. Additionally, they will maintain an awareness of events in the community and find opportunities for the student body and staff to engage in community events. They will also maintain an understanding of career and study opportunities students can pursue after graduating

Supervising arrangements for the distribution of course materials.
